

MULTIWOOD MEANS THOMSON MULTIWOOD

Thomson Group established in 1986, is one of the leading traders in Aluminium and Imported building materials based in Cochin, Kerala. The firm has flourished its business across South India over past three decades and has climbed the corporate ladder of success to become pioneers in Aluminium and Imported building brands. Timely association with international giants in the industry has always strengthened the group to further establish dealers across South India.

ALL WHITE SHEETS ARE NOT MULTIWOOD

THOMSON MULTIWOOD

All other polymer sheets except Thomson Multiwood Premium/ Regular are likely to contain lead. Always make sure to use Thomson multiwood Regular/ Premium instead of natural wood/Plywood/ MDF etc.

Through years of experiments and efforts, waterproof and termite resistant multiwood was developed. It helps carpenters to make beautiful home interiors with ease. 14 YEARS of quality and customer satisfaction are the two key factors of Thomson Multiwood's success.

Thomson Multiwood, India's first branded extruded polymer sheet, also Rank No.1 in sales. Make sure to use Thomson Multiwood for interior and exterior works offices, hospitals, factory as well as for household purposes. Thomson Multiwood is always one step ahead, meeting all wooden needs. It is also eco-friendly.
